MAKING THE MOST OF THE MODERN CLASSROOM

Did you know that in a recent Classflow survey, 100% of head teachers said they believe technology has a role to play in the modern classroom?*

Read on to find out more about some of this year's must-have products for compulsory education. All selected to make a real difference to the fun and effectiveness of the learning environment, as well as offering **time and cost efficiency** for your school.

We've also got some great optional accessories – from vital added protection through to tools to make life that little bit easier for your teams.

INTERACTIVE E-BOARDS

THERE'S A NEW WAY TO COMMUNICATE

Research has shown that multisensory, hands-on learning not only provides engaging lessons, it also allows students to learn and take in information more effectively.

Samsung's interactive E-Boards help bring lessons to life. Interactive E-Boards allow users to share multiple information streams as they happen, engage with collaborative learning and showcase students' work and presentations.

Classroom applications:

- Multimedia lessons – including audio and video collaborative problem solving
- Showcasing students' work or presentations
- Virtual field trips
- Documentation of student achievement

SAMSUNG

Fantastic interactive LED display

Samsung's 1920x1080 DME-BC Signage E-Boards offer a faster on-screen writing and editing experience while maintaining the natural feel of an analogue whiteboard. The display's hand touch function enables up to 10 different participants to touch the display's screen, using two fingers to make content selections, comments and edits, with individual actions easily recognisable by the group. Choose from PCAP or IR touch display.

49% of state primary and secondary school teachers felt they hadn't received the training to use technology effectively.**

instrui
training space

Make more of your technology with Instrui

Research shows that while new technology is being purchased, many users don't understand how to use it to its full advantage and how to adapt it to meet their specific needs.

Enabling teachers or presenters to tailor technology to their own requirements is imperative – the difference between fully-integrated technology and an expensive, underused investment.

Instrui key services:

- Technical training
- Demo services
- User adoption consultancy
- Content services
- Support

Instrui provides training for a host of industry leading brands:

SMALL FORMAT DISPLAYS

EFFICIENT WORKING, ACROSS THE SCHOOL

With over 1.3m desktop computers in UK schools, small format displays and monitors are still essential pieces of classroom kit.

Investing in newer models not only brings greater screen features and improved graphic capabilities, they can also offer **lower energy use**, which directly affects the school's long-term overheads.

iiyama

Gentle on the eyes and great for energy-efficiency

One of our best-sellers, this 24" ProLite screen from iiyama provides a host of features that not only benefit pupils but the school too.

ProLite E2483HS features:

- Flicker-free monitors and blue light reducer function to cut down eye fatigue
- Integrated high-quality stereo speakers
- Headphone socket for individual learning
- Class A, Energy-Star rating for less energy consumption
- Easy VGA, DVI-D and HDMI connectivity

CLASSROOM MANAGEMENT

Tech Teachers

CELEBRATING OVER 30 YEARS,
LANSCHOOL POWERS
12 MILLION
EDUCATION DEVICES**

SIMPLE, RELIABLE CLASSROOM MANAGEMENT

Classroom management software allows teachers to manage and control pupils' screens easily to provide a safe digital learning environment.

Providing a platform to share information and interact with the class, LanSchool's classroom management software allows effective collaboration and communication.

LANSCHOOL HELPS PROVIDE AN INTERACTIVE ENVIRONMENT WHERE CHILDREN CAN LEARN AND SCHOOLS GET THE GREATEST RETURN FROM THEIR TECHNOLOGY INVESTMENT"

Rick German, Executive Director, Lenovo Software Development

Key LanSchool features for teachers:

- View thumbnails of each student's screen from a distance to ensure they're on task
- Use chat function to communicate and assist students with projects
- View internet history and keystroke monitoring to maintain safe online environment
- Share an individual's screen and showcase their work to the class
- Distribute quick quizzes and share results instantly
- Switch all monitors to blank screen to remove distractions when addressing the class

Compatible with Chromebooks, Windows, Macs, iOS and Android. Talk to us about LanSchool for your school today.

PROJECTION

CLEAR DISPLAYS FOR COLLABORATIVE WORKING

Projectors are still major players in the must-have technology on offer for schools, displaying large images without taking up storage space.

LCD projector benefits:

- User-friendly models – easy to operate and trouble shoot
- Clear images that can be seen by all, not just those in front rows
- Provides better learning experience – display and share online content
- Many affordable projectors to choose from, often easy to swap over when upgrading

NEC

Cost-effective replacement projection with multi-presenter facility

The NECME301X/W is portable and perfect for classrooms. Plus, with versatile, colour-coded connections to various sources and dual HDMI, it also offers great flexibility.

NEC's MultiPresenter functionality allows simultaneous screen mirroring of up to 20 devices (Android and Windows) via a wired or wireless connection. (Win, MAC, Android, iOS) (No internet access or WAN required).

CLASSROOM VISUALISERS

Tech Teachers

HIGHLY VERSATILE, EASY SHARING

Visualisers enable super-easy sharing of objects in science, pages from text books, or even items under the microscope, with no PC necessary.

Visualiser benefits:

- Share one teaching resource with all pupils – minimise photocopying and duplication
- Reduce the need to download images and purchase digital content – just use real examples
- Easy sharing with whole class – no need to cluster around single objects

ELMO
CONNECTING MINDS

Dynamic and engaging lessons every day

The ELMO L-12iD is an all-inclusive smart visualiser/document camera designed for teachers looking to create dynamic and engaging lessons. Just connect the L-12iD to a projector, a monitor or an interactive white board to capture every detail.

POWER UP with ELMO Wireless Tablet or Interactive Pen

Partner the L-12iD with the ELMO CRA-1 Wireless Tablet or CRB-1 Interactive Pen to annotate on live images captured by the L-12iD while the image is displayed on a large screen – all totally PC FREE!

DOCUMENT SCANNERS

HELPING TO REDUCE ADMIN TIME AND STAY COMPLIANT

The complete scan and file management package for your school.

From the admin office to your art classes, document scanners allow easy scanning and filing and can help schools to remain compliant with safeguarding and data protection laws.

Keep compliant with data protection and safeguarding laws

Brother's Scan to SIMs package links the popular ADS2800 desktop scanner directly to SIMs. This enables admin offices to quickly scan school trip permission forms, health records and more. Most importantly, it can link with SIMs to *automatically file* the new document under the relevant pupil's folder.

Key scan to SIMs benefits:

- Significant reduction in staff admin time
- Improved efficiency – search facility and scan direct to dedicated folders
- Easier to comply with national safeguarding and data protection laws
- Reduction of paper-based filing system, freeing up office space
- Convenient transfer of student data with mass file transfer capability

Scanner and software bundle

EFFICIENT PRINT SOLUTIONS

When it comes to print, maximise efficiencies, save money and resources with a range of technology options.

Unless you're monitoring your print and paper usage and using efficient and effective printers, you could be losing money and adding to your ongoing operating costs on a daily basis. Here are just a couple of options that will help reduce costs and bring efficiencies across your school.

Four years of trouble-free in-house colour printed material

With a 4-year warranty as standard, the CX510de is a colour multifunction that offers print, copy scan and fax functionality. It's ideal for any in-house colour prints needed and is a fast, high quality printer for every-day use.

Key features:

- High reliability
- Comes with 4-year warranty
- Fast 32 printed page per minute
- 4-in-1 functionality with built-in touch screen
- Networked model
- Supports high-yield toners (less replacements needed)

Product code **LEXCX510DE4YR**

**PAPERCUT IS SCALABLE
SUITING NETWORKS FROM
5 TO 500,000 USERS****

PaperCut^{MF}

Cut waste, track printing and save money

PaperCut MF print management software is used across the world by education and corporate establishments in a bid to cut waste, save costs and keep prints secure.

Key features:

- Suits networks from 5 to 500,000 users
- Works with BYOD – fully integrate laptops, notebooks, iPads/iPhones
- PaperCut MF can monitor and report on print usage by department, device or user
- Provides secure print for release of sensitive documents
- Allows conditions to be set up such as double-sided and mono-only prints

Find out how the PaperCut print management software could bring benefits for your school.

3D PRINT

BRING STUDENTS' WORK TO LIFE

Providing the ultimate in lesson engagement, 3D print gives teachers in compulsory education many opportunities to help pupils see their ideas come to life before their eyes.

Whether it's younger children making their new 'monster' creations, budding artists designing their own phone cases and replicating natural history finds, or older children developing models and prototypes in design and technology lessons, 3D print provides solutions that don't break the bank.

Simple, safe and easy to use 3D printing

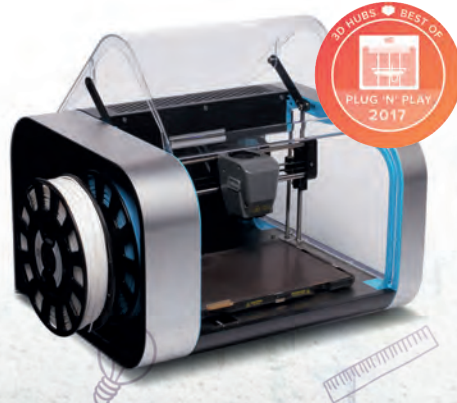

The British-made Cel Robox is a market leader in 3D print, providing high quality desktop printing at an affordable price. Choose from single or a dual print head models, with dual giving greater design capability.

Robox features:

- Fully-enclosed build area with interlocking safety door
- Easy to use software (Window, Mac, OS and Linux)
- Wide range of supported build materials to choose from with no set-up required
- Easy automatic calibration – no need for user intervention

 Products designed and developed in the UK

“ROBOX IS PERHAPS THE FIRST INDICATION THAT 3D PRINTING AS A MAINSTREAM ACTIVITY IS FINALLY HERE”

ACCESS CONTROL

Tech Teachers

"Once it has been agreed that security and access control will be beneficial the next step is to decide which features are most suitable"

- John Davies, Managing Director TDSI

KEEPING SECURITY IN CHECK

Security to the school premises is paramount. Now you can benefit from systems that offer real peace of mind, freeing up your time for other duties.

Whether you need secure access for your whole school, for science labs, staff rooms, the reception area or the external doors, we can supply stand-alone controllers through to bespoke fully integrated access control software management suites.

Benefits include:

- Prevention of intrusion from unauthorised people
- Maintaining the security and safety of staff
- Reduction of theft of equipment
